

Advisors: [Kristin Kiefaber](#) and [Beth Boyer](#)

Grades: 9-12

Meets: Thursday, once/month

More info: The High School Math Team travels to local high schools from 3-6PM one Thursday per month from October to March. Students may join at any time during the school year. One signed permission slip covers all six meets. Practice packets with answers can be picked up at any point before a meet and a voluntary practice is held after school within a week of an upcoming meet. There is also an all-day State Meet in late March, where 10 students travel to Plymouth State University to compete. This requires an additional permission slip. Math Team participation looks great on college applications!

Contact Beth Boyer or Kristin Kiefaber with questions.
