Lab 603.02: Must have equal numbers of employer and employee representatives or more employee than management representatives.

Committee Purpose: The purpose of a JLMC is to bring workers and management together in a non-adversarial, cooperative effort to promote safety and health in each workplace.

Meeting Discussions:

- Reminded everyone that the information in these meetings is confidential. There are a few discernible details that could be used as identifiers
- The safety plan has been completed and we now have to schedule walkthroughs for the schools. Each walkthrough must have 2 or more committee members. The walkthroughs don't all have to be on the same day, but they should occur within a reasonable window
- Dave will partner up with Devan and Randy and will invite everyone that wants to to join. There will be four (4) distinct sections of our facilities and Dave will create and share a schedule for all four sections so that JLMC members can participate in as many sessions as possible given individual time constraints.
- Consider having NES members walkthrough NJSHS and vice versa in order to get a different perspective
- Re-assessed and voted on Chair and co-Chair, reiterated the importance of committing to the roles as well as having the role of Chair rotate between Employer and Employee categories annually, per DOL requirements. Having a Chair and Co-Chair, one from each category, allows us to ensure compliance with DOL. Devan (Employee category) and Dave (Administrator Category) nominated themselves and were elected unanimously.
- Shared the medical claims from the beginning of the year. Discussed tendencies of aggressive students. Made a note to bring in the student services director once a year. Have sent her the dates so she can check her schedule and see what day works best.
- Reminded committee of future meeting dates: 12/14/23, 3/14/24, 6/13/24
- Noted that our most common claims throughout the year are Slips, Trips and Falls, particularly when winter comes. Looking to provide information that can be distributed

and posted at the schools to help employees be more aware of the risks (flyer attached to next meeting agenda)
